

August 1, 2005

Dear Friends and Supporters of American Ukrainian Medical Project:

Summer is upon us and all of us at AUMP hope you are happy and well. We are happy to report that our equipment distribution in Ukraine went very well indeed. Everything arrived intact and has been distributed to all of our participating hospitals as planned. Almost everything we sent is familiar to our colleagues but there was enough new equipment to make it necessary for us to travel to Ukraine to conduct some specialized training. This will need to wait a bit while we make the necessary preparations and see about funding – at present the cost is beyond our means.

Our next newsletter should be ready in about two months. In it I hope to report some success in fundraising as well as some of the highlights from our 2005 fiscal year which ends in a month. It has been a very interesting year for us and we have marked some important successes. If you have not visited our website since late June or early July you owe yourself a treat. The reconstruction is essentially complete and most of the translations have been done. We are very happy with the results of this particular project. We are already seeing a higher level of interest in our Project since the new website was launched.

In the meantime we hope you will enjoy your summer as much as we are. Take good care and we will be back again in a couple of months with more news.

Sincerely,

Russ Ayers

President
